

Business Licenses and Taxes

PUBLIQ™ Software's Business License application enables your agency to easily track and manage fees and payment history as well as create customizable applications and licenses to best suit your needs. For the most efficient operation, Business License enhances your capabilities, shares data, and saves time by integrating with PUBLIQ's Accounting Suite and Centralized Collections applications.

COMPLETE INFORMATION MANAGEMENT

Access critical information at your fingertips with a comprehensive database of business information.

- Store payment, license, and ownership information
- Handle all contractor work through a single license
- Receive alerts to past-due payments before licenses are renewed
- Track and bill various types of licenses

THE FLEXIBILITY YOU NEED

PUBLIQ provides you with the freedom you need to run your agency the way you want.

- Modify applications, receipts, notices, and licenses
- Customize rates by type
- Charge and collect recurring tax payments
- Handle rates based on flat fees, gross receipts, number of employees, or a combination of types
- Add additional fees to licenses
- Create custom reports or run standardized reports and export data to your favorite software
