

Simplify Your Budget and Purchasing Processes

Complete Fiscal Accountability

Our Accounting Suite provides a complete solution to maintaining your budget across departments and funds. Manage general ledger, purchasing, budgeting, and bank reconciliation within a single application.

PUBLIQ software has been the easiest and most user-friendly software I have ever been a part of. The people there are very friendly and helpful. The whole experience was top notch from the very start.

Easily Manage Accounts and Assets

Intuitive tools help you access information from multiple years and funding sources, eliminate duplicate data entry, and set recurring entries and invoices. You can also tailor account charts to suit your needs, accurately disburse funds, and generate miscellaneous receipts.

Simplified Purchasing and Budgeting

Our system is designed for easy budget preparation, analysis, and purchasing. Use one-point data entry for multiple standardized documents, create recurring invoices and payments, customize purchase approvals, print individual checks, and determine the cost of personnel.

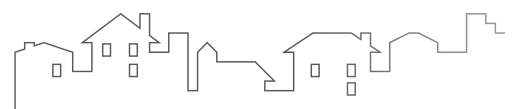

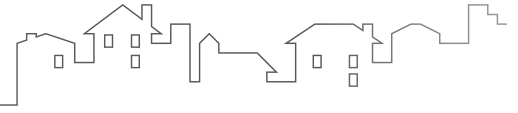

Tailored Tracking and Reporting

Access dozens of ready-made reports or create custom reports like balance sheets, income statements, budget worksheets, and revenue expense reports. Our application also supports data export to Microsoft Excel® and other popular options.

Interfaces & Integration

Seamless Software Integration

Integrate with other PUBLIQ applications for complete financial management. Bundle with:

- **Accounts Receivable** to reduce budget deficit and increase revenue through collections of owed debts.
- **Auditor** to efficiently calculate and manage personal property taxes.
- **Business License** to customize business licenses, manage taxes and fees, track payment history, and stay up-to-date with local business changes
- **Cash Management** to simplify payment processing, accept various payment methods – cash, check, or card – in a single transaction, and reflect payments immediately with real-time processing.
- **Fixed Assets** to maintain detailed asset records, track equipment, and efficiently record your data.
- **Inventory** to accurately control inventory supply and quantity with comprehensive management tools and recordkeeping.
- **Municipal Tax** to track payments, maintain detailed records, and simplify tax collections.
- **Payroll** to track and update personnel costs.
- **Project Accounting** to track, report, and analyze transactions related to the cost, billing, and revenue of any size project.
- **Treasurer/Tax Collector** and **Tax Sale Management** to handle all aspects of daily tax processing, from payments to refunds and unpaid notices.
- **Utility Billing** to handle every aspect of management for water, gas, and electric utilities of any size.

Services

Imaging Documentation

Scan, import, and securely store images of documents without compromising customer privacy. Attach images to customer accounts, third parties, meter records, and owner records to easily access information.

Remote Backup

We work closely with you to determine and meet your networking and hardware needs. Eliminate the responsibility and stress of maintaining your server, scheduling updates, and managing downtime due to equipment failure.

IT and Hardware Maintenance

When disaster strikes, we keep your devices running to ensure your business workflow is uninterrupted. We offer flexible options to host and manage data and software, ranging from on-site installation to cloud and enterprise.
