

## Manage Business Licenses and Occupational Taxes with Flexibility

### Complete Business License Management

Our Business License application helps you maintain detailed records of business licenses/occupational taxes, fees, and payments and create customized applications and licenses to fit your needs.

### Comprehensive Information Management

Access critical business information using an extensive database. Store license history and ownership information, bill various types of licenses, collect and track monthly hospitality tax payments, and receive past-due payment alerts before licenses are renewed. Manage contractor work with ease through a single license, too.

The willingness of [the PUBLIQ team] resulted in the city's reports being submitted before the deadline. I am forever grateful.

*City Clerk*  
Walthourville, GA

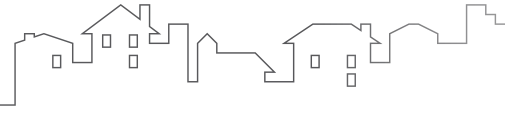

### Scalable Features

Our tools give you the freedom to run your office your way with the ability to print applications, receipts, notices, licenses, and rates by business type. Charge and collect recurring tax payments and add additional fees to licenses. Report and export your data with ease using standardized reports or create custom reports.

# Interfaces & Integration

## Seamless Software Integration

Integrate with other PUBLIQ applications for complete financial management and data sharing. Bundle with:

- **Accounting Suite** to ensure fiscal accountability across departments and funds while simplifying the budget process.
- **Cash Management** to streamline collections, simplify the payment process, and more, while protecting yourself from fraud.

# Services

## Imaging Documentation

Scan, import, and securely store images of documents without compromising customer privacy. Attach images to customer accounts, third parties, meter records, and owner records to easily access information.

## IT and Hardware Maintenance

When disaster strikes, we keep your devices running to ensure your business workflow is uninterrupted. We offer flexible options to host and manage data and software, ranging from on-site installation to cloud and enterprise.

## Remote Backup

We work closely with you to determine and meet your networking and hardware needs. Eliminate the responsibility and stress of maintaining your server, scheduling updates, and managing downtime due to equipment failure.
