

Optimize Your Cash, Check, and Credit Transaction Process

Complete Payment Management

Our Centralized Collections application helps you streamline collections, simplify customer payments, remain PCI Standard compliant, and protect your information from fraud – all in one solution.

PUBLIQ Software has supported us from day one. I use the software every day.

Happy Customer
Cherokee County, SC

Simplify Payments

Make your payment process easier by collecting multiple types of fees and taxes and accepting cash, check, and card payments in a single transaction. Offer convenience with automated customer account alerts and eliminate batch processing with real-time payments.

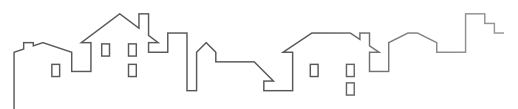

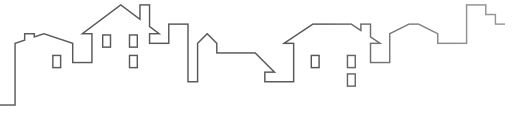

Keep Information Secure

Multiple security layers help protect you from fraud. Customize employee access levels and set security requirements to control access to sensitive information, reduce errors, and prevent unauthorized actions. Audit all payments and voided transactions with ease using the Transaction Journal.

Interfaces & Integration

Seamless Software Integration

Integrate with other PUBLIQ applications to receive payments for utilities, business licenses/occupational taxes, property taxes, and other miscellaneous costs while managing your finances. Bundle with:

- **Accounting Suite** to ensure fiscal accountability across departments and funds while simplifying the budget process.
- **Accounts Receivable** to reduce budget deficit and increase revenue through collections of owed debts.
- **Business License** to customize business licenses, manage taxes and fees, track payment history, and stay up-to-date with local business changes.
- **Municipal Tax** to track payments, maintain detailed records, and simplify tax collections.
- **Utility Billing** to handle every aspect of management for water, gas, and electric utilities of any size.

Services

IT and Hardware Maintenance

When disaster strikes, we keep your devices running to ensure your business workflow is uninterrupted. We offer flexible options to host and manage data and software, ranging from on-site installation to cloud and enterprise.

Remote Backup

We work closely with you to determine and meet your networking and hardware needs. Eliminate the responsibility and stress of maintaining your server, scheduling updates, and managing downtime due to equipment failure.
