

Cash Management

PUBLIQ™ Software's Centralized Collections application is a complete cash management solution. Conveniently manage multiple payment options while remaining compliant with strict PCI requirements. For total efficiency, Centralized Collections allows you to receive payments for utilities, property taxes, business licenses, and other miscellaneous costs by communicating with other PUBLIQ applications, such as Utility Billing, Accounting Suite, Business License, and Municipal Tax.

COMPLETE PAYMENT MANAGEMENT

Make the payment process easier for you and your customers by receiving and paying multiple bills in a single transaction.

- Provide the ability to accept multiple payment types in a single transaction
- Save time with automated customer account alerts
- Eliminate batch processing with payments reflected in real time
- Associate multiple accounts for quick retrieval

MULTIPLE LEVELS OF SECURITY

Security layers allow you to work with confidence, knowing your information is protected from fraud.

- Establish various levels of employee access using built-in tools
- Secure information, reduce cashier errors, and prevent unauthorized actions
- Track all payments and voids with a transaction journal

VERSATILE AND USER-FRIENDLY

Centralized Collections is designed to give you the time-saving advantage.

- Integrates with touchscreen technology
- Simplified credit card processing eliminates the need for duplicate data entry
