Inventory

Maintain full control of inventory and equipment with the management tools of PUBLIQTM Software's Inventory application. Conveniently store and access the important details you need by accurately tracking inventory locations and amounts. Inventory also integrates with PUBLIQ's Accounting Suite to eliminate duplicate data entry by automatically adding general ledger entries during purchasing.

ENHANCED INVENTORY MANAGEMENT

Accurately track and manage inventory with modern tools.

- Use barcode technology to track items with speed and accuracy
- Simplify audits by maintaining on-hand inventory and the history of added and removed totals for stock items
- Manage reorder thresholds and quantities
- Compile complete item history
- Calculate the average cost of items

DATA STORAGE AND ACCESS

Inventory makes saving and retrieving valuable data quick and easy.

- Store equipment and vehicle data, including item photos
- Create Governmental Accounting Standards Board[®] (GASB) compliant reports, or create customized reports to fit your needs
