Stress-Free Payroll Processing

Efficiently process payroll for an unlimited number of employees and pay types while managing leave, expenses, benefits, bonuses, and deductions. Run payroll based on your preferred schedule, customize time cards, and offer your employees direct deposit in up to seven bank accounts.

Flexible Payroll Management and Budgeting

Adaptable tools and budgeting features help you stay organized and plan ahead. Divide employee time between departments by fixed amount or percentage and track varied leave rates and accruals. Perform what-if budget projections, forecast the cost of open positions, and automatically update pay rates from your approved budget.
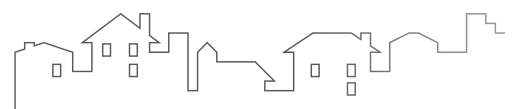

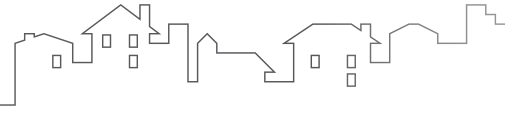

Compliance Reporting

Simplified recordkeeping saves time and reduces errors when calculating and reporting payroll data. Store detailed personnel information and build a complete audit trail with multi-year history. Remain compliant while generating 941s and W-2s, EEOC and Affordable Care Act reports, and more, or create custom reports and export only the data you need.

Interfaces & Integration

Interface with Time Clocks

Interface with all major time clock vendors to:

- Allow for real-time data sharing.
- Eliminate the need to purchase additional applications.

Seamless Integration

Integrate with other PUBLIQ solutions for complete financial management, to save time, and increase productivity. Bundle with:

- **Payroll Portal** to offer your employees secure access to their payroll information via mobile, desktop, or tablet. Payroll Portal enables employees to track leave balances, request changes to withholdings and deductions, and print payroll vouchers, W-2s, pay statements, leave details, and income tax.
- **Accounting Suite** to automatically build general ledger entries, ensure fiscal accountability across departments and funds, and simplify the budget process.

Services

Imaging Documentation

Scan, import, and securely store images of documents without compromising customer privacy. Attach images to customer accounts, third parties, meter records, and owner records to easily access information.

IT and Hardware Maintenance

When disaster strikes, we keep your devices running to ensure your business workflow is uninterrupted. We offer flexible options to host and manage data and software, ranging from on-site installation to cloud and enterprise.

Remote Backup

We work closely with you to determine and meet your networking and hardware needs. Eliminate the responsibility and stress of maintaining your server, scheduling updates, and managing downtime due to equipment failure.
